SONG-YUN LANG, GUO-XI XUE & JI-RONG ZHANG

received 18.XI.2015

**Abstract:** *Lopinga eckweileri* GÖRGNER, 1990 is recorded from Gansu Province, China for the first time, and Tewo is the second known locality of this little known satyrid butterfly.

*Lopinga eckweileri* GÖRGNER, 1990 (Satyrinae: Satyrini) is a little known butterfly and it has been collected only from its type locality, Jiuzhaigou [former Nanping county], N. Sichuan province, China (GÖRGNER, 1990; BOZANO, 1999). A ♀ specimen was collected by the second author from Tewo and it is the second known locality of this species. Tewo is a County in S. Gansu Province and its southeast borders on the Jiuzhaigou county. In addition Min-Shan is a big ridge which extends southeastwards through Tewo to Jiuzhaigou. Therefore, both the two Counties belong to a same fauna, and it is not surprising to discover this endemic species from Tewo.

*Lopinga eckweileri* GÖRGNER, 1990 (Figs: 1, 2)

Ent. Z. **100** (18): 333. (Jiuzhai-gou, Nanping, Sichuan); BOZANO, 1999, Guide Butt. Palearc. Reg. Satyridae 1: 14.

**Material:** 1 ♀, China: Gansu, Tewo, Lazikou, Meilu-gou, 2600 m, 21.VII.2015, leg. GUO-XI. XUE, kept in Dr. SONG-YUN LANG's private collection, Shuangliu, Chengdu, Sichuan, China, LSY.

**Distribution** (Fig. 3): S. Gansu (Tewo), NW. Sichuan (Jiuzhaigou).

**Acknowledgements:** We must express our sincere thanks to Mr. VADIM V. TSHIKOLOVETS (Kiev, Ukraine) for his help. This study is supported by the National Natural Science Foundation of China (41401067).
